

Keep Shropshire
Warm

CASE STUDY

Keep Shropshire Warm aims to make affordable warmth a reality for households throughout Shropshire. It tackles the very serious problem which fuel poverty poses for many homes across the county.

Keep Shropshire Warm is a £165k DEFRA funded initiative which works in conjunction with The Shropshire Partnership and all the Local Authorities. Living with cold and damp or struggling to pay costly fuel bills can be miserable and Keep Shropshire Warm aims to help alleviate this for as many households as possible. Keep Shropshire Warm is managed by Marches Energy Agency and seeks to identify households that are struggling to afford a reasonable standard of heating through innovative training of relevant professionals, tailored marketing campaigns and affective energy efficiency schemes including grants to help finance affordable warmth measures in your home.

- We offer grants and discounts to help finance affordable warmth measures
- We offer energy efficiency advice
- We offer a unique referral service to relevant key professionals who have regular contact with vulnerable households.
- We offer relevant key professionals innovative training to recognize those vulnerable households living in fuel poverty.
- We offer benefit entitlement checks

Keep Shropshire Warm is
